

## NO DANGER OF WAR.

The Russian-British Dispute Over North Sea Affair Settled.

London, Oct. 29.—All danger of war between Russia and Great Britain has been averted and the settlement of the only points in dispute regarding the attack by the Russian second Pacific squadron on British travelers October 11 has been referred to international commission under the Hague convention.

Premier Balfour, speaking at a meeting of the National Union Conservative club at Southampton Friday night, broke that alliance which had been so long preserved and had brought the people of the United Kingdom to a condition of almost desperate irritation and given rise to misconceptions which Mr. Balfour Friday night himself exposed. "The Russian ambassador," said Mr. Balfour, "has authorized a statement to the following effect: The Russian government, on hearing of the North Sea incident, at once expressed its profound regret and also promised most liberal compensation. The government has ordered the detention at Vigo of that part of the fleet which was concerned in the incident, in order that the naval authorities might ascertain what officers and any material witnesses would not proceed on the voyage to the far east. That inquiry would be instituted into the facts by an international commission as provided by the Hague convention. That Mr. Balfour interposed, had nothing to do with arbitration; it was the constitution of an international commission in order to find out the facts and any person found guilty would be tried and punished adequately. The Russian government undertook that precautions would be taken to guard against recurrence of such incidents. Special instructions on this subject would be issued."

St. Petersburg, Oct. 28.—The naval general staff publishes the following dispatch from Vice Adm. Rojestvensky: "The North Sea incident was caused by two torpedo boats advancing to attack without lights under cover of darkness, against the vessel leading the detachment. When the detachment turned on its searchlights and opened fire, the presence of several small steamboats resembling steam fishing boats was discovered. The detachment endeavored to spare those and ceased firing as soon as the torpedo boats were out of sight."

## SOUTH OF MUKDEN.

Everything Indicates That Both Armies Are Ready For a Resumption of Hostilities.

## THE JAPS LARGELY REINFORCED.

Second Battle on the Shakhe River Will Prove Bigger and More Serious Than the First.

On Night of October 30 Japanese Attacked the Russian Entrenchments East of Sincinpu, But Were Repulsed.

The Foo, Oct. 31.—The third general attack on Port Arthur began October 24, according to unimpeachable authority, and on October 26 Japanese shells set fire to the only smokeless powder magazine in Port Arthur. Portions of the town caught fire, the conflagration continuing the whole day. On October 26 the Japanese captured the Russian trenches on the slope of Ripling mountain, also a fortified position, protecting that fortress. The Japanese consider the progress of the siege to be highly satisfactory.

St. Petersburg, Nov. 1.—Everything indicates that both the Japanese and Russian armies south of Mukden are ready for a resumption of hostilities. If indeed fighting has not already begun, Gen. Kuropatkin reports that the Japanese have received reinforcements from the south and Feng Wang Chang. Their concentration seems to have been accomplished and they are ready to resume the offensive both east and west of the railroad. There is an official estimate of the strength of the Japanese reinforcements, but correspondents place it at from 40,000 to 60,000. It is believed that the Japanese force has been very largely augmented both from Port Arthur, where an engineering siege has been begun, and Japan, from whence it is said even available in 24 hours.

It seems to be assured that the Japanese will be able to meet Gen. Kuropatkin on almost if not quite an equal numerical footing. The mere fact that they are again threatening a double flanking movement indicates Field Marshal Oyama's confidence in the efficiency of the force at his disposal. It is believed here that the second battle on the Shakhe river will prove to be as much bigger and more serious than the first, as the first was more serious than the battle of Lia Yang. Gen. Kuropatkin is confronted by an exceedingly difficult problem. He is pitted against a Japanese force stronger even despite its recent losses than that first opposing his south advance. If Kuropatkin now succeeds in checking or even breaking the Japanese formation it will open large possibilities for the brief remainder of the present year's campaign. On the other hand, a Russian reverse would render the position exceedingly critical.

Dispatches indicate the resumption of fighting on both extremities of the Russian front. The night of October 30 the Japanese attacked the Russian entrenchments east of Sincinpu, but were repulsed though the bombardment continued throughout the night. A Japanese advance has also begun against the Russian positions at Tung-an, a mile and a half north of Sincinpu, where they encountered a heavy Russian fire.

Vigo, Spain, Oct. 31.—Inquiries here fail to obtain the slightest confirmation of the report published in the United States that Vice Adm. Rojestvensky has requested Emperor Nicholas to relieve him of his command.

## Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born with diseased kidneys. The child suffers too often, if the urine scalds the flesh or if when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, dependent upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. The unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Foley's Kidney Cure is realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet, "How to Recognize Kidney Trouble," by sending a stamp for all about it, including many of the thousands of testimonial letters received from sufferers cured. ## A SUCCESSFUL TRIP

Knabenshine Made a Second Trial of the Airship California Arrow at St. Louis.

## CIRCLED IN EVERY DIRECTION.

After Making Heading Against Moderate Wind He Landed at the Place From Which He Started.

The Daring Aeronaut Remained in the Air 2,000 Feet Above the Earth For 26 Minutes—The Machine Is Draggable.

St. Louis, Nov. 1.—After circling in every direction at a height of 2,000 feet above the cascades, in sight of thousands of cheering, enthusiastic spectators on the World's fair grounds, Roy Knabenshine, of Toledo, O., in command of the Baldwin airship, Monday returned to the place from which he had started over the same course that he had come, covering the three miles and a half of the round trip under his own power and demonstrating the claims of the inventor, Capt. Thos. S. Baldwin, of San Francisco, that the "California Arrow" is not only dirigible, but that it can make headway against a moderate breeze.

Knabenshine started from the aeronautic camp at 3:37 p. m. and returned after his remarkable flight at 4:05 p. m. On the return trip the airship sailed slowly over the exact spot from which it had risen, 26 minutes previously, and glided about 100 feet further west where it settled gracefully to the ground.

The descent of the Arrow was the signal for a demonstration the equal of which has not been seen since the wheels of the World's fair started last April in response to the pressure on a key by President Roosevelt. Dozens of eager hands were upstretched to grasp the frame of the airship and the flying machine, with its daring navigator, were carried around the course upon the shoulders of shouting men.

Hats were thrown in the air and when Knabenshine called for them cheers for his home town, they were given with a will and another round followed for Knabenshine and Baldwin.

## THE LIGHTWEIGHTS.

Britt Lost the Championship By Foul-ing Gans in Fifth Round.

San Francisco, Nov. 1.—Jimmy Britt, of California, lost the lightweight championship of the world Monday night when he fouled Joe Gans, but sent Gans to his knees in the fifth round and then losing his head gave him a vicious punch and Referee Graney promptly awarded the decision to Gans on a foul. The same thing had happened in the fourth round. Gans had dropped to his knees to escape a blow that did not land. Britt struck at him and Graney very promptly recognized the foul fighting. It looked almost from the start as if it were Britt's fight. He actually out-boxed Gans and landed blow after blow. In the fourth round it was apparent that Gans was scared and baring a foul the fight was Britt's to a certainty.

After the fight, when Britt had recovered his temper, he apologized to Graney and said: "What could I do when a man fell every time when it was unnecessary? I am sorry I hit him while on his knees but I could not help it."
